## President's Message

### President's Message by Brian Mayer

As we come to the end of 2023, I am looking back fondly at my Presidency of the Club, the trips I have gone on and the many friends that I have shared experiences with. The friendships I have found in this Club are truly rewarding.

This month's Club meeting will be at a new location with a new format. I encourage all Club members to attend and then answer our survey to help guide future meetings.

Bring a new, unwrapped toy to our December meeting, and we will deliver them to a local kids charity.

Do you want to do more for your Club? Would you like to help guide our Club's future? Consider volunteering for our Board of Directors. As a volunteer run organization, we rely on the help and dedication of our members. Many of the current Board members have been serving for quite a while. It is time for a new generation to take over the helm. For those willing to do more, we have open Board of Directors positions in leadership and administration. Education, outings, sponsorship, outreach, speakers, auctions, newsletters - all these activities require an active board and committee chairs.

The Board can use new members in any positions. Please feel free to contact myself or any current Board member to explore your participation.

#### **Election for 2024 Board of Directors**

**At the December meeting, we will have our annual election of Board members. We will accept all nominations from any member of the Club at the meeting and then hold the election.**

All members of the Club are welcome to attend the monthly Board meeting via Zoom. Come see what your Board does. Meeting information and Zoom connection are available from the Club website – the link is at the bottom center of the Club's homepage.

As our Club has grown and more people are attending our monthly meetings, we are quickly outgrowing our meeting location. Our Venue Committee is hard at work trying to locate another appropriate location. If you know of a meeting location that you think we should check out, please contact myself or any member of the Board with your suggested site.

Best regards,

Brian Mayer

## This Month's Speaker

# Fly Fishing -- A Little Something for Everyone with Mike Peters

FFCOC board member Mike Peters has been fishing since he was just 3 years old! He fished with his grandfather on weekends as a kid. And at the age of 5 years old, he fished in his grandfather's pond every single day during the summer.

His presentation will offer a little something for everyone whether you like fishing in fresh water or salt water. There are simply numerous opportunities for the SoCal based angler including:

- THE SURF
- THE EASTERN SIERRAS
- CATALINA ISLAND
- ALASKA
- STEELHEAD FISHING IN VARIOUS AREAS

Mike grew up in Lakewood, CA. He was a standout track star and football player and went on to play running back and kick returner for OLE MISS.

Mike used to primarily fish the ocean and spent many hours on trips for tuna, shallow water rockfish and many other species. He has fished off of the coast of San Diego, and the Channel Islands near Ventura and Santa Barbara. Mike has fished all over the country for trout, in areas like Montana, Utah, Wyoming, Nevada, and also in Oregon for Steelhead.

He has also been fishing for salmon in Alaska for over a decade and currently holds a guide's license there. Mike also has experience fishing the Sea of Cortez in Mexico. In addition to all of his fishing experience, he also attended South Lake Tahoe Guide School and received professional training in the

sport of fishing, which he loves so much.

Mike is currently a financial advisor at a major Wall Street firm. He resides in Long Beach with his family and guides inshore off of the local coast for ocean fishing, in local bodies of freshwater, as well as in the Sierra Nevadas and Alaska.

A dedicated father, Mike spends many hours developing his two sons into star baseball, soccer, basketball players, and of course fly fishermen.

### Keepers Wanted

Are you interested in a fly-fishing trip – someplace you've gone before or maybe someplace you've always wanted to go?

A great way to meet people and hone your fly-fishing skills, and ultimately have fun is participating in a FFCOC fly fishing trip, and one of the ways of doing this is being a Stream Keeper.

Every trip sponsored by FFCOC, and included in the FFCOC Outings calendar, has a Stream Keeper whether it's a multi-day trip or just a morning of fly-fishing at the surf.

Does this sound a bit too daunting? It's not. The FFCOC has a procedure specifically for Stream Keepers in the Members Only section of the FFCOC website, look in Document Folder Steamkeeper ([Documents - Fly Fishers Club of Orange County \(clubexpress.com\)](https://clubexpress.com)). Contact your Outings Director, Mike Peters, and there are many former and current Stream Keepers that will answer any, and all questions. This is a great way to get involved in your Club, meet other Club members, and mostly enjoy fly-fishing!

### FREE FLY FISHING CLASSES

#### 2023 FFCOC On The River Classes and Clinic (aka Fly Fishing 101)

#### Dates:

##### Classroom Session

- Saturday November 4th, 8:30 AM
- Santiago Canyon College (8045 E Chapman Ave, Orange)

##### On The River Clinic (Kern River)

- December 2 and 3. The Outing has been moved to the Kern River because the flow levels for the Lower Owens River are projected to be too high for a successful Outing.
- 2022 participants please see note at end of article.

The Fly Fishing Club of Orange County's (FFCOC's) On The River Classes and Clinic program is in its eighth year. It is a perfect way for new, and less-experienced, fly fishers to learn the art of fly fishing. The program which is open to Club Members intro-

duces participants to the fundamentals of fly fishing including the equipment, techniques and science of catching fish. The program is a great introduction to a sport you can enjoy for the rest of your life.

Joe Libeu, a member of the FFCOC, is a Fly Fishers International Certified Master Caster Instructor and professional guide. He developed and instructs Advanced Nymphing Clinics on the Owens River. Several experienced club members assist Joe providing hands-on training during the On The River Clinic.

The program includes everything needed to plan and prepare for a successful fly-fishing trip. Classroom training subjects include equipment, insect life cycles and how flies imitate them, how trout behave, clues as to what fish eat, stream care and etiquette, reading the water, nymph rigging and much more.

The On The River Clinic is held on the Kern River near Kernville. Many of the items discussed in the classroom setting are covered in the field. In addition, the on the river clinic includes reading the stream, entomology, casting, mending, setting depth of flies using indicators, and numerous demonstrations. The program includes fishing one-on-one with one of the more experienced club members.

## **Club News - On The River Clinic (Con't)**

### **2023 FFCOC On The River Classes and Clinic (Con't)**

The On The River Classes and Clinic program is focused on helping new FFCOC members learn the basics of fly fishing and will be in follow up to our annual Casting Clinic scheduled for Saturday September 16th. Participation in the On The River Classes and Clinic program is limited. New Club Members and those who sign up at the September Casting Clinic will be given preference. Other Club members are welcome to participate if space allows.

Remember, the On The River Classes and Clinic program is only open to FFCOC members. If you are not a Club member you can join at our web site [www.ffcoc.org](http://www.ffcoc.org) or contact the Club's Membership Chair at [membership@FFCOC.org](mailto:membership@FFCOC.org).

#### **REGISTRATION**

Registration will open in mid-August. The date registration is scheduled to open will be announced in the Club Newsletter and on the website.

#### **CLUB VOLUNTEERS NEEDED**

If you are an accomplished fly fisher and know the Kern River, you would be a great candidate to work with Joe and provide instruction at the On The River Classes and Clinic program. Please contact Doug Jones if you can help. We will need eight to ten members to help with the training.

#### **SPECIAL NOTE TO PARTICIPANTS IN THE 2022 CLASSROOM SESSIONS**

As you know we did not have an outing for the 2022 session due to river conditions. If you completed the classroom sessions you are welcome to join us on the outings for the 2023 sessions. Also, you may consider attending the classroom session as a refresher.

### Damage to the Upper Santa Ana River from Tropical Storm Hilary A Fish Tale Habitat Report by: Brian Mayer

For those Club members like me who have enjoyed fishing the upper Santa Ana River from the South Fork campground down to Seven Oaks, I have some unfortunate news. In August, Tropical Storm Hilary thoroughly devastated this section of the river and damaged Highway 38 in several locations. CALTRANS completely closed the highway for repairs, and only opened it to weekend traffic on November 17. At the end of the Thanksgiving weekend, I was able to drive up to the area and survey the damage and repairs being made. Water and debris flows scoured 50 foot wide sections completely stripping the trees and riparian willows. In some areas, the riverbank was eroded down 15 to 20 feet. Several cabins along the river had their foundations undermined by the rushing waters.

I think it will be some time before there will be any fish catching in this area.

Here are some pictures that I took at the bridge where Highway 38 crosses over the Santa Ana River and the area of the South Fork Campground.

## Club News - Fish Tales

### **Wanted! Your Fish Tales!!**

Have you been fishing lately?? Please share your story with our membership! Our readers enjoy reading about your fishing exploits!!

You don't always get to share your full stories at our monthly meetings. The Newsletter provides a great forum to share your stories!

Your tales don't need to be novels, or even short stories. A paragraph or two would suffice. Photos are great (as the old saying goes, "they are worth a thousand words")! Don't worry about the formatting or arranging. Just send what you've got! Your newsletter staff will handle the polishing!! Your Fish Tales are always greatly appreciated!

Please send your Fish Tale submittals to your 2024 Newsletter Editor, Terry Roznos at:

## 2024 Outings - San Juan River (New Mexico)

### San Juan River, NM Outing

Stream Keeper: Brian Mayer, (562) 619-9169, [bdmayer@hotmail.com](mailto:bdmayer@hotmail.com)

April 14 to 17, 2024

Please contact Brian Mayer, [bdmayer@hotmail.com](mailto:bdmayer@hotmail.com), (562) 619-9169 for questions, answers, information and to make arrangements.

We are planning another fantastic outing to the San Juan River in northwestern New Mexico for April 2024.

The clear river waters of the San Juan are the jewel of northwest New Mexico just a short 14 hour's drive from Southern California. The river is fed from the deep waters of Navajo Lake which provide nearly constant temperature and abundant food supplies. This means many large brown and rainbow trout with substantial fight.

I have made a block reservation at the Fisheads San Juan River Lodge for rooms and Guides, [www.fisheadsofthesanjuan.com](http://www.fisheadsofthesanjuan.com). Please contact me if you wish to attend this outing so I can assign rooms and fishing buddies. If you prefer to make your own arrangements, please feel free to do so.

Please Note: the Abe's Motel, Restaurant and Gas Station have permanently closed. It is up for sale and NOT operating at this time.

Fisheads Lodge also offers an All Inclusive option. This option includes room, guide and all meals (breakfast and special dinner menu) each day. Lunch is always included on guide days.

**Continued, next page →**

## 2024 Outings - San Juan River (New Mexico)

Plan to arrive by Sunday, April 14. The general plan is to fish with guides Monday, Tuesday and Wednesday, April 15 to 17. I strongly recommend you get a guide for at least two days to thoroughly enjoy all the fishing the San Juan Quality Water has to offer.

I will be coordinating a caravan for this trip. We will depart SoCal on Saturday, April 13 and spend the night in Flagstaff, AZ. We will arrive midday on Sunday, April 14 to the San Juan River and Fisheads Lodge.

For more information, please contact stream keeper Brian Mayer, [bdmayer@hotmail.com](mailto:bdmayer@hotmail.com) or (562) 619-9169

If you plan to attend the trip, please call or send Brian Mayer an email so we have contacts for everyone.

## Southwest Council FFI – News & Events

### MICHAEL SCHWEIT | SPECIAL PROJECTS

Greetings, we hope your holiday plans are going well. The Southwest Council has an event on February 10 and we would love to have your club participate. It is our Trout Rodeo and this will be the third year. We have team and individual categories so there is something for everyone. However, in the past two tournaments, only two clubs have participated and I am puzzled as to why. Let me tell you some of what I have heard and give you some food for thought (just what you need after your Thanksgiving feasts, right?).

1. "It will be crowded on the Owens" - this is a myth. On any given weekend from January through March, 2-3 clubs may be up there fishing with up to 100+ members. The Tournament has attracted far less and the clubs have avoided the weekend because of the fear of crowding. Instead of trying to coordinate your club outing for the same weekend (nothing wrong with that at all!), encourage a few members to show up and represent your club and win the team category.

Continued, next page →

## Southwest Council FFI – News & Events

2. "The Tournament is open to fly and gear"– True and most of us came from the gear world. It is still a catch and release tournament and the two methods of fishing compete in different divisions. Your club members can invite their gear friends and have fun together.
3. "Competition is not what fly fishing is all about" – If there was a \$10K prize, I could see that. But we give away a few rods and reels and some silly prizes too and have a lot of fun. On a side note, our audience is skewed to the younger age range; something the clubs are trying to attract. Come on up and talk to these folks and get them interested in fishing, and joining your club!

I think that is about it. Teams can be of any size and the cost is pretty minimal (\$25 individual and \$20 per team). Let's see if we can turn this event into a club gathering. More fun than Club Management Day!

Southwest Council will provide FREE admission (no parking) into the show. Each shift is only 4 hours, leaving you plenty of time to see the rest of the show.

When working the booth, you will be greeting interested parties, finding out where they live, directing them to a nearby club, and talking about SWC projects. It's a great, fun event, so grab a friend and come and enjoy the show.

## Flies That Keep On Giving!

### Fitsimon's Midge Adult

By Janna Roznos

During our travels this Fall, while in Glenwood Springs, CO (Roaring Fork Anglers), our guide showed us this midge in his fly box; the Fitsimon Midge. I found this midge on one of the Fly-Tying Facebook pages. It's a popular fly for the Frying Pan River, which is a tributary of the Roaring Fork River in Colorado. It is successfully used in western waters, anywhere trout are feeding on midges. I wasn't able to find a YouTube video to see how it was tied, so with just a picture and using fly tying materials I had on hand I experimented and came up with my version of the Fitsimon's Midge Adult. I tied up in several, in different sizes and in an evening had stocked my fly box with these flies – ready for my next fly-fishing trip. Can't have enough midges in your fly box; dries, emergers and nymphs! Here is my version...

#### Materials:

Hook: Dry fly hook. I used a Firehole 419, size 18

Thread: Uni 8.0 Cahill

Wing: Sparkling Emerger Yarn Clear/White  
or an equivalent

Hackle: Grizzly Hackle

Thorax: Peacock Hurl

Cement: Loctite

#### Instructions:

1. Put the hook in the vise and wrap thread over the shank to the bend.
2. For the wing (sparkling Emerger Yarn Clear/White or an equivalent) measure it out at approximately  $\frac{1}{2}$  length of the shank and tie this on at the bend of the hook, leaving the  $\frac{1}{2}$  length hanging off the back of the hook. Make sure that the wing material doesn't roll off the top of the hook. Fold the excess material back (out of the way) and clip with a material clip.
3. Tie in a prepared grizzly hackle and wrap it forward covering about  $\frac{2}{3}$  of the hook shank. Tie off and trim.
4. Tie in a peacock hurl (mine were pretty stringy so I used two peacock hurls) and wrap a tight thorax. Tie off and trim.

## Flies That Keep On Giving!

5. Unclip the wing material (Sparkling Emerger Yarn Clear/White or an equivalent) and lay it over the top of the hook, parting the grizzly hackles and peacock hurl to either side. Tie off right behind the eye of the hook. Trim and whip finish, and glue (I use Loctite super glue, but even clear nail polish will work, too).

Enjoy!

Janna
