Fly Fishing California's Trinity River with Andrew Harris

Northern California's Trinity River watershed is a magnificent, four-season fly fishing destination for trout and steelhead. Anglers travel to the Trinity River year-round for many reasons and many types of fish. Fly fishers know the Trinity River is a top-notch steelhead destination during fall and winter, but that's not the whole story. Anglers flock to the watershed in the summer months to chase trout in high country lakes and streams. Other fly fishers target salmon on the fly in early fall. Stillwater fly fishers head to Lewiston Lake during every season for excellent trout fishing. And spring is the time for thick

(Continue on page 10 Andrew Harris)

FFCOC PRESIDENT'S MESSAGE

MAY 2013

Spring is here! Many of you have already had the pleasure of fishing the spring melts. Honey Burns and I will be making our first Fly Fishing trip of the year in May. In case you didn't know, Mother's Day Week is a great time to hit the waters because most wives (*Not this one!*) won't let their Honeys go fishing - so we usually have the rivers to ourselves.

As our year progresses, we will have a multitude of activities in which to participate, both club and FFF events. Yes, that means we will need volunteers! You know volunteering is not a bad thing - remember it is volunteers like YOU who keep our club running! Our club members are great people to work with and hang out with and we know we have more great people in our membership; you just might be too shy to offer your help. Well, instead of leaving the sign-up list on the tables this month, I will be sending my clipboard around asking for your help.

Please stop and think about it and you will find you will meet more members which can only enhance your membership experience. If you are unsure how you can help, please talk to any Board Member and we can find something that fits your skills, your schedule and the club's needs. There are even some perks to volunteering your time - make the most of your membership!

Volunteer Opportunities for Upcoming Events

Next Generation Kids Academy: June 1, 2013 - *This event is in conjunction with the West Fork San Gabriel River Conservancy* (See John Burns)

Trout in the Classroom (See Melinda Burns)

Picking up eggs from hatchery and delivering to classes

Class presentations: Fly Tying, Casting, Knots

FFF Intra-Club Tournament on the Kern River: November 2, 2013 (See Melinda Burns)

5 Fisherman and 5 Controllers Needed

FFF Fly Fishing Faire in Mammoth: September 19- 22, 2013 (See Melinda Burns)

Various Positions Needed - teaching or aiding in a class, greeters, food runners, registration, and much more.

Club Auction: September 11, 2013 (See John Williams)

Club Casting Clinic (Fall): TBD (See Van Lloyd)

Remember, by volunteering you are not only giving something back to the club but you gain so much for yourself! Come and enjoy the fun and help us support our Mission!

Our Mission

The Fly Fishers Club of Orange County was founded in 1966 to further the sport of Fly Fishing and to provide a meeting function for area residents interested in the sport. In addition to being a way to meet others who enjoy the sport, there were three goals in mind when the club was founded:

Educating the Public

Conserving the fisheries

Contributing its resources in order to make fly fishing enjoyable and available to all who are interested

SPEAKER'S LIST – 2013

By Andy Frumento

<u>DATE</u>	<u>PLACE</u>	<u>SPEAKER</u>	<u>TOPIC</u>
1-9-13	Ballroom	Chris Eaton	"The Meandering Madison"
2-13-13	Pavilion	Pat Dorsey	"Fly Fishing Western Tailwaters"
3-13-13	Pavilion	Kevin Peterson	"Hot Creek"
4-10-13	Pavilion	Gary Bulla	"Fly Fishing The Edge – Baja"
5-8-13	Pavilion	Andrew Harris	"The Trinity River"
6-12-13	JT Schmid's Brewhouse	Greg Vinci	"Fly Fishing Up Hwy 395"
7-10-13	Pavilion	Landon Mayer	"Timing Is Everything: Trout Hunting Colorado's 4 Seasons"
8-14-13	Pavilion	Jeff Solis	"San Diego & Mission Bay"
9-11-13	Pavilion	Auction	
10-9-13	Pavilion	Jeff Currier	"Four Seasons of the Yellowstone – Trout Bum"
11-13-13	Pavilion	Alberto Salvini & Marica Ciccoria	"Fly Fishing The World"
12-4-13	Pavilion	Christmas Program

Flies That Keep On Giving

By John Williams

I'm headed to Arkansas in April and I have talked to George Peters the guide and listened carefully to his instruction on what flies are usually available the dates we have scheduled. George mentioned scuds and they are both available in streams, rivers and lakes, what an all round fly. He told me they were an olive gray and I happen to have the materials, surprise. I am demonstrating a key component of hiring a guide, communication if you plan to fish with your own flies; I do acquire a few of each fly the guide uses to see what works in their world. I have asked they send me one of each pattern and tie them prior to my trip; they will not always accommodate my wishes unless they know me and realize I'm a repeat customer. Ask your question even the dumb ones they can always say no.

Easy Scud

Hook: Daiichi 1250 #14

Thread: UTC 70 Dark Olive

Wire: UTC Small Fluorescent Orange or Small Copper

Scud Back: Swiss Straw Gray

Dubbing: Olive Gray Antron, Orange Antron

Start the thread at the eye and catch your wire and wrap mid way down the bend leaving the wire to the rear. Tie in a small bunch of Olive dubbing with the fiber protruding to the rear to form the antennae and run the thread up just short of the eye. Swiss straw preparation, I unravel it and cut it in half length wise, a piece about four inches long, that is enough to tie several scud. Tie in the Swiss Straw just behind the head and secure with thread all the way back to the mid way point on the bend, keeping the Swiss straw on top and centered on the hook. Dub the body with the Olive Gary and add a little of the Orange to sit near the front of the fly. Lay the Swiss straw over and secure just behind the head. Carefully wrap the wire forward trapping the Swiss straw, use a bodkin to help keep the fibers of the dubbing being trapped on top of the Swiss straw, tie off just behind the head, whip finish and head cement. Now pick out from the bottom of the fly to form legs.

FFCOC FLY TYING CLASSES

By: Cheryl Moore

What a fantastic time we had. I'm referring to the FFCOC Spring fly tying

classes that were held at the REI/Tustin store. This last round of fly tying was the biggest group of students we've had. We still had four separate classes but our largest class was the beginning students. Many of our intermediate tyers are repeat students and they are showing remarkable talent. It is obvious they have found a passion for our fly tying craft. Our classes have been very successful and this is based largely on the quality of our full time instructors and the "guest tyers" that donate their time and a lot of their own tying materials to instructing and increasing the level of talent that our students demonstrate. My heartfelt "thank you's" go out to all of these individuals. Without these dedicated people, our classes wouldn't be nearly so effective. Fly tying classes will once again be offered on a Tuesday night, once a week, in October and November 2013. If you have any particular fly pattern you want to learn to tie or a target species you want to fish and need ammo, please don't hesitate to contact me. In the meantime, please take a look (below) at one of our classes and some of the flies that were presented to our students. Have a very fun and safe summer.

Just one more shout out and THANK YOU to the following folks: Mike Neesley, Lyman Kennedy, Jim Edwards, Joe Libeu, Kathy Kim, Greg Cooks, Richard Fanning, John Williams, Shane Chung and Bill Blackstone.

Women Only Outing 2013

Attention Women of the “Fly Fishers Club of Orange County”

**Are you a new Fly Fisherwoman?
Do you want to improve you skills?
Would you like to mentor a new Fly Fisherwoman?
Do you want to just fish with other Women?**

If you answered yes to any one of these questions, then join us as we spend 4 days and 3 nights in the Mammoth. We will be fishing the Alpine Waters of the High Sierra in the mornings and Hot Creek or the Owens River for later afternoon fishing. We will be renting a condo in the Mammoth area that has 3 bedrooms and a loft , full kitchen and 3 bathrooms. This will accommodate 8 people comfortably and we will split the cost amongst those who sign up. Approximate cost will be as low as \$20 a night per person for lodging. Food and Transportation will be additional cost. However, we will setup carpools for those who do not want to drive and we will take turns cooking. In the evenings we will work on fly tying and entomology for the newbies or talking about how to read the waters and what rigging you can use. Or just sipping a glass of wine whilst watching some fly fishing movies. StreamKeeper: **Melinda Burns** 951-415-9920 or email at mel11755@pacbell.net

Fish Creek Outing June 28, 29 and 30th

Sign up is now open for the Fish Creek outing. This is a camping outing, as there is NO facilities way up there. Fish Creek is located near Ridgecrest, about a four hour drive from OC. We will be fishing for (small) Golden Trouts and this is a wonderful trip for the beginner and (so-called) expert alike, so if you are interested, contact me at jimmywt1957@yahoo.com, or call me at 714 337 5899

5 DOT RANCH STILLWATER CLINIC

Hello friends, my name is Ernie Gulley (stream keeper) and I am a guide in the Eastern Sierra and a proud member of your Orange County Fly Fishers Club. I wanted to share what I feel is a very unique opportunity for all of my fellow "Stillwater" fly fishers and anyone who would like to learn "Stillwater Fly Fishing Tactics" This would be an excellent opportunity to get ready for the opening season of stillwater fishing and tools you can use for the rest of the year!

5-DOT Ranch is the largest working cattle ranch in the state of California. On the ranch there is a 400 acre private lake (Round Valley Reservoir) which is located between the town of Susanville and Eagle Lake. This reservoir is locally known as "5 DOT Res." and has very limited access. It is full of powerful Triploid Rainbow Trout and is the perfect place for any level of fly fisher to hone their stillwater skills.

Doug Ouellette who owns **Calvada Fly Fishing**, runs all of the clinics and guide services at 5 DOT. He has been fly fishing and teaching anglers advanced stillwater techniques for over 30 years. Doug is well known nationally for his expertise on stillwaters. He has fished many lakes and reservoirs across the United States, Canada, and New Zealand. He grew up learning his skills at California's Eagle Lake, Davis Lake, and Frenchman Res. He wrote a piece in John Barr's book "Barr Flies" pg.6 on the "**Floater no Cator**" technique. This year Doug will be accompanied by **Ernie Gulley who owns Ernie Gulley Fly Fishing Guide Service** is a premiere guide at the famous California stillwater Crowley Lake. His 30 years of "Stillwater" fishing, 15 years of these as Fly Fishing has acquired him a wealth of knowledge and his passion for stillwater fly fishing is unmatched and will be a tremendous asset to the "Outside the Box Clinics".

The clinics are a **2 1/2** day fishing event which will cover advanced stillwater techniques, including aquatic entomology, presenting food items, reading water, and fly selection. The clinics will also cover knot tying, leaders, and proper rigging. Along with the "Floater no Cator" technique Doug and Ernie will teach shoreline wading, float tube, pontoon boat, small pram, and large boat techniques including "**Loch Style**" fishing. These clinics offer plenty of "on the water" instruction as well as many hours of angling time to practice these techniques. This year Doug will be accompanied by **Ernie Gulley**. Ernie is a premiere guide at the famous California stillwater Crowley Lake. His years 30 years of "Stillwater" fishing, 15 years of Fly Fishing has accumulated a wealth of knowledge and his passion for stillwater fly fishing will be a tremendous asset to the "Outside the Box Clinics".

Schedule

Friday afternoon – check-in from 4:00 pm. to 6:00 pm.

Dinner – 6:30 pm. to 7:30 pm.

8:00pm – "Power Point" presentation and intro on the weekend's events.

Saturday – Fishing & Instruction 8:00 am. to 5:00 pm.

Light Breakfast 7:00 am. – Lunch 12:00 pm. – Dinner 6:30 pm.

Sunday – Fishing & Instruction 8:00 am to 4:00 pm

Light Breakfast 7:00 am.- Lunch 12:00 pm.

Check out 4:00 pm.

*Price: \$495.00 Please make ALL checks payable to " Calvada Fly Fishing".

Price includes – 2 days rod fee, two days guide fee, dinner Friday and Saturday night. Lunch at the lake each day and use of demo equipment provided by our sponsors. Call or email **Doug** at calvadaflyfishing@sbcglobal.net (775) 722-2267. Accommodations: Camping is included on the Ranch and is recommended. There is a nice group camping area set up for dinner Friday and Saturday along with the "Power Point" presentation. Please note that this is a "rough" campsite with no running water. There are Sani-Huts. For those who wish to stay in a motel in Susanville go to the "**Hotels & Accommodations**" page on this web site www.fivedotflyfishing.com for some great deals on rooms

CLINIC DATES:

May 31st, June 1st, & 2nd. ***4 spots left !**

July 12th, 13th, & 14th. *** 4 spots left !**

September 27th, 28th, & 29th.

All meals included.

San Juan River Trip Report

Sixteen club members and family traveled to Navajo Dam, New Mexico last month to fish the San Juan River and for some to do some sight seeing. It seems every year we have one very lousy day of weather and this year was no different. Saturday morning we drove to the river with outside temperature of 11 degrees and winds 20-30 mph with gusts much stronger. It didn't get a lot warmer that day but winds got much worse. Many of the boats couldn't make it down the river due to the strong winds. The weather did improve every day and despite cold weather and winds, the fishing was very good. Although there were some smaller fish caught this year, the average was 16-18 inch rainbows and browns with larger ones up to 24 inches. There were several stories of the big one that got away. Most of us stayed at Fisheads and the feedback was that the guides and accommodations were very good. The weather report for the day that we left was 55 degrees high with no wind. So it seems we arrived one day too early. Overall very good trip. Lyman Kennedy, Streamkeeper.

One Surf Fly Beach Classic Huntington State Beach April 27th

The early gray morning was greeting with a buzz between surfers wondering what was going on and surf anglers eager to get registered and in the water. We had 56 anglers fishing the event this year. The fishing began at 7:25am and went to 9:30am. There was plenty of good structure to go around for everyone. 129 fish were caught ranging from micro perch to a 22.5" halibut. The biggest fish landed was actually a 28" snagged halibut, but the angler did a wonderful job of fighting the fish to get his fly back. The first fish was landed at 7:27am.; a couple minutes after the start of the event. The most fish caught was at 14, with a mix bag of barred surf perch, walleye surf perch and yellowfin croaker. The biggest fish landed that counted was a 22.5" halibut. Club members Steve, John, and Gil helped out with the judging and other jobs for the event, and with that a big thanks.

Membership Welcomes

Lets greet all of the new members at this Wednesday May 8th meeting with a warm hello. Remember all new members will have a green circle sticker on the name badge

Mo Tidemanis

Seventh Annual Rush Creek Cleanup

Saturday, June 22nd, 2013
Rush Creek, Silver Lake Resort, June Lake Loop, CA

Trash, from monofilament to old bait containers, will be picked up from Rush Creek, Silver Lake and down the canyon as far as Grant Lake by member club representatives of the Southwest Council Federation of Fly Fishers (FFF) on Saturday, June 22nd. The Seventh Annual Rush Creek Cleanup is slated for 8 a.m. - noon, according to Joe Lemire, a member of the Streamborn Fly Fishing Club and SWC IFFF representative. Silver Lake Resort in the June Lake loop will provide a free barbeque lunch following the cleanup. Volunteers will pick up and dispose of trash along an approximately five-mile stretch of the eastern Sierra along the shoreline of Silver Lake and Rush Creek from the power plant above Silver Lake down the canyon to Grant Lake. "We've previously filled as many as 60 trash bags on our Rush Creek cleanup; this year we expect to haul out 30 to 40," Lemire said. Club volunteers are expected to carry out coolers, sun glasses, broken bottles, automobile hub caps, hundreds of feet of fishing line, hooks, lures and bobbers that are a death trap to wildlife. If enough volunteers show up this year, the cleanup can continue up the canyon and impact the environment as far as the Gull Lake area. Anglers who will be in the area and want to volunteer should meet at the Silver Lake boat ramp at 8 a.m.; bring gloves, hat, sun screen, trash pick-up sticks, boots and waders if you have them. Trash bags will be provided by Silver Lake Resort.

For information, contact **Lemire** at jflx8@dslextreme.com or phone (909)-609-1101.

Meeting will be held at JT SCHMID'S
BREWHOUSE NOT AT THE PHOENIX CLUB.**

JT Schimid's is located on Katella
Across from the Honda Center Wet Flies
6:00 pm + Dinner 7:00 pm

hatches of mayflies and stoneflies that bring big browns to the surface. So this watershed truly has something for everyone.

Our guide to this productive and scenic fly fishing destination is Andrew Harris, a northern California guide with 15 years of experience. Andrew began his career at Clearwater House on Hat Creek in 1997, guiding clients on the rivers surrounding Mt. Shasta and Mt. Lassen, including the Fall River, Pit River, Upper Sacramento River, McCloud River and Hat Creek. He gradually expanded his venues to include drift boat trips on the Lower Sacramento River, Feather River, Yuba River and Trinity River.

Andrew's guidebook to the Feather River country, *Plumas National Forest Trout Fishing Guide*, was published in 1999 by Frank Amato Publications. Andrew is a regular contributor to *California Fly Fisher* magazine and has also written for *Sierra Fisherman* and *Northwest Fly Fishing* magazines. He is a regular speaker at fly fishing clubs throughout northern California and has traveled extensively, spending time fly fishing the Bahamas, Belize, Costa Rica, Mexico, Venezuela, New Zealand, Chile and Tasmania.

Andrew graduated from U.C. Davis in 1998 with a degree in Environmental & Resource Science. Like many fly fishing guides, he wears more than one hat. Andrew created LodgeRunner.com, a web-based booking system for fly shops and lodges. This software is used by some of the leaders in the fly fishing world, including Silver Creek Outfitters and Henry's Fork Lodge in Idaho and Spotted Bear Lodge in Montana. LodgeRunner allows these businesses to schedule guides, take online bookings for guiding and lodging and manage all booking-related guest correspondence.

Andrew and his wife Katie live in Red Bluff with their daughters Mackenzie, 4, and Madison, 3. Andrew and Katie also manage Eagle Canyon Trophy Trout Lakes, a private catch-and-release fly fishing destination in the foothills of Mt. Lassen. The 2012-13 season was their third season managing this productive stillwater fishery. The fish at Eagle Canyon average 7 pounds and some weigh more than 15 pounds! Eagle Canyon is open from mid-November through mid-April.

Andrew and two of his colleagues took their guide business to the next level in 2008 by creating Confluence Outfitters, a regional guide service focused on the best trout and steelhead destinations in northern California and southern Oregon. Confluence Outfitters has six guides that work from the Lower Sac to the Lower Rogue and everything in between. Andrew's seasonal rotation includes year-round drift boat trips on the Lower Sac, summer trips on Fall River and nearby fisheries, and lots of guiding on the Trinity River. The Trinity is one of his top three guide destinations, keeping him very busy from mid-September through early March.

Andrew's presentation will cover the Trinity River watershed from top to bottom. He will show and explain high-country trout fishing, stillwater opportunities, steelhead fishing with both single and two-handed rods, salmon fishing and techniques for catching the plentiful wild brown trout on the Trinity. Andrew is enthused to share his knowledge of this exciting destination with everyone!

You can check out Andrew and Confluence Outfitters by going to: www.ConfluenceOutfitters.com - (530) 632-3465

Do not miss this program! Andrew Harris is a great speaker, and the Trinity River and its surrounding waters has something for every type of fly fisher.

See you there... and remember to pursue your fly fishing dreams.

Andy Frumento

CONSERVATION FRONT AND FFF NEWS

(This is not an endorsement, but just getting the notice out to the club members on behalf of the conservation and FFF events happening within our state affecting our fisheries.)

San Gabriel River West Fork Kids Academy - Volunteers needed

FFCOC is looking for Club Members to assist the San Gabriel River West Fork Conservancy with the Kids Academy. If you can Cast, Fly Tie, Read a stream or talk about bugs we would like your participation. If you're interested, please contact **John Burns** (951) 734-6005.

Hot Creek Trout Fest 2013 - Volunteers needed

The California Department of Fish & Game is looking for volunteers to support their Hot Creek Trout Fest to be held in June.

The California Department of Fish and Wildlife is organizing Trout Fest 2013, a one day kids fishing event, at the Hot Creek Hatchery on June 29th. Jim Erdman, a CDFW biologist, is looking for volunteers. This is the first year Trout Fest will be held at the Hot Creek Hatchery and the organizers hope to make this an annual event. Please let your members know about this terrific event. If any members have questions about volunteering tell them to email me and I'll try to answer any and all questions, otherwise they can contact Jim directly at his email or number below. This is a great opportunity to spend a few days in the eastern Sierras, get in some quality fishing, and help out some kids in a worthwhile project. This is the kind of event that kids remember for the rest of their lives. Contact **John Burns** at (951) 734-6005 for more info.

Event: 2013 Fly Fishing Faire
Where: Mammoth Lakes, Calif.
Venue: Cerro Coso Community College
101 College Parkway
Mammoth Lakes, CA 93546
When: September 20-22, 2013

What: A cornucopia of all things fly-fishing in Mammoth Lakes, the heart of California's fly-fishing world; an introduction to all aspects of the sport including beginner and intermediate fly casting, fly tying demonstrations and instruction. *Where-to-go and how-to-do-it with local guides. Workshops and programs on virtually every Sierra water including Hot Creek, the upper and lower Owens River, Lake Crowley, Walker River Basin, Merced River, small stream tactics, and bass in the lower Owens. Wildlife photography, fly-fishing films, Sierra sightseeing; conservation raffles and auctions. Vendor display booths.

Programs, demos and hands-on lessons by writer, photographer and Champion Fly-Caster Brian O'Keefe.

Hours: Fri. - 9-5; Sat. - 9-5; Sun. - 9-3

Admission: \$15 adults. Age 16 and under free. (Single admission is good all Faire days.)

Sponsor: Southwest Council Federation of Fly Fishers (SWC-FFF)

Registration: Opens June 30, 2013 on-line (Classes and seminars are limited by size.)

Website: SWC-FFF.org/faire

Fly Fishers Club of Orange County

The **PURPOSE** of the Fly Fishers Club of Orange County is to:

- Encourage angling with artificial flies (fly fishing)
- Encourage education and fisheries conservation, including habitat and watershed conservation
- Disseminate to the public the results of the Club's efforts
- Encourage youth to follow sound conservation practices

To **ACHIEVE** this the Club conducts various meetings, events and outings as documented in this newsletter.

MEMBERSHIP is open to all. If interested, contact one of the board members or come to one of the meetings.

Meeting Locations: Cross Roads Church of Irvine/
 Phoenix Club: Tustin:
