## Fly Fishing Nevada's Pyramid Lake with Ernie Gulley

Not too far away from southern California is one of the most popular stillwater trout fisheries in the U.S. Pyramid Lake is in Nevada, 45 minutes northeast of Reno and sits on the Pyramid Lake Paiute Indian Reservation. This lake is world famous for huge Lahontan cutthroat trout that average 20 to 22 inches long, with each year trout being caught that weigh 15 to 20 pounds. To locals, a big trout is anything more than eight pounds.

Pyramid is home to a technique called ladder fishing, which we will learn about: we will see why and how this technique is used in helping fly fishers catch one of these famous trout. We will also learn about the history of the Lahontan trout and how the Paiute Indians have done such a fantastic job of sustaining the great fishing we have there now. We will also learn what are the best weight and length of rods to use, how shooting heads can be effective and how successful certain indicator fishing tactics have become in the last few years.

The lake is 22 miles long and 12 miles wide, with your being able to catch fish almost everywhere. We will be shown a variety of ways to target these big fish and the best times to do so; we will also cover what gear to bring, what flies to use and how to fish in weather that might be considered less than ideal.

The guide for all this information is our friend Ernie Gulley, who wowed us earlier this year with his knowledge and valuable advice about fishing Lake Crowley.

# President's Message

*Doug Jones*

I would like to thank everyone that participated in Septembers Auction with a special thanks to Melinda Burns and everyone that helped her put on this great event.

## ***President's Outing October 19-21***

The President's Outing, open to all Club members, is traditionally near the end of the year and is a celebration of all of the Club's events and activities held during the year. It's a time to talk to old friends and make new friends. As has been the tradition for many years, the outing will be held on the Kern River near Kernville.

For 2012 the outing will be Friday evening, October 19 thru Sunday October 21. You can attend all or part of the event. Please sign up at the October Club meeting or by contacting Doug Jones at (714) 697-2222 or [doug-j@dslextreme.com](mailto:doug-j@dslextreme.com).

**Lodging:** As far as I know, all of the rooms at the Sequoia Lodge are booked as of now but you may want to check for cancellations. There are a number of other places to stay or camp in and near Kernville.

**Meals:** The club will provide the customary Saturday evening BBQ dinner and get together starting a 6 p.m. at the Sequoia Lodge. All who sign up are welcome. A Friday evening dinner is in planning. It will be a no host dinner at a local restaurant assuming this can be arranged. You are on your own for the rest.

**Fishing:** There are many miles of fishing possibilities on the Kern River. Information on gear and flies will be sent to those who register.

**Fly Shop and Guiding:** Kern River Fly Shop (760) 376-2040, 11301 Kernville Road, Kernville, CA 93238. In addition, there are several online fishing reports, maps of fishing locations, etc.

Hope to see you there.

Doug Jones

---

## Guess Who?

It's June 1955 and we've been fishing for Bluegill on Lung's Pond near Placerville, CA. Who is the guy on the right shown here with his two brothers and "a mess" of Bluegill. (Hint: He's a past club president.)

# **SPEAKER'S LIST – 2012**

By Andy Frumento

<u><b>DATE</b></u>	<u><b>PLACE</b></u>	<u><b>SPEAKER</b></u>	<u><b>TOPIC</b></u>
1-11-12	Ballroom	Kelly Galloup	"Streamer Tactics for Trophy Trout"
2-8-12	Pavilion	Brian Slusser	"Reno-Tahoe Fly Fishing"
3-14-12	Pavilion	Mike James & Scott Peterson	"Utah Magic"
4-11-12	Pavilion	Ernie Gulley	"Crowley Lake"
5-9-12	Ballroom	Spencer Higa	"The Best Fly Fishing in Eastern Utah"
6-13-12	Ballroom	Chris Santella	"50 Places to Fly Fish Before You Die"
7-11-12	Ballroom	Brian O'Keefe & Todd Moen	"Behind the Scenes at Catch Magazine"
8-8-12	Ballroom	Chad Schiel	"Fly Fishing For Bass Top To Bottom"
9-12-12	Ballroom	Auction	
10-10-12	Loreley Room	Ernie Gulley	"Pyramid Lake"
*11-7-12	Pavilion	Tony Reinhardt	"Fly Fishing Western Montana"
*12-5-12	Pavilion	Christmas Program	

**\*NOTE:** November and December's program is the 1<sup>st</sup> Wednesday of the month.

## **2012 Outings Plan**

# Flies That Keep On Giving

By John Williams

October has arrived and what does that mean to me? The big boys and girls come out to spawn in the fall, the October Caddis do as well. The October Caddis is a bit larger and a meal that can't be ignored. I have fished the hatch before and find it amazing to be a part of, so out of this love and a trip back to Southern Utah on the immediate horizon I developed my version of the bug. After you tie a few they are quick.

Willie's October Caddis

Hook: Daiichi 1160 #10-14

Bead: 1/8" Black Tungsten

Thread: Rust Brown 6/0 Uni Thread

Rib: .5 Stretch Magic bead and jewelry cord from Michael's

Abdomen dubbing: Ice Dubbing Salmon Pink

Bottom Legs: Brown Hen's saddle feathers

Antennae: Lemon Wood Duck

Thorax: Rocky Mountain Seal-ex dubbing Medium Olive

Front of Thorax: Ice Dubbing UV Light Olive

Place the bead on the hook small end first. Start your thread behind the bead. Tie in a 6" piece of stretch cord and wind the thread over the cord to the bend at the back. Dub the abdomen with Ice dubbing Salmon Pink to the  $\frac{3}{4}$  forward point. Wrap the abdomen with concentric wraps of the stretch cord forward and tie off at the  $\frac{3}{4}$  point. Tie in a few, 6-10 brown hen saddle fibers beard style at the  $\frac{3}{4}$  point and let them hang to the hook point. Tie in four wood duck fibers at the  $\frac{3}{4}$  point and let them extend over the back and to the rear twice the abdomen length. At this time place a slight amount of super glue on the wraps, only a slight amount for durability. Dun the Seal-ex loosely at the  $\frac{3}{4}$  point. Dub in front of the seal-ex the ice dubbing light olive loosely and whip finish behind the bead to fill in the gap and to build up a band slightly. Add a slight dap of super glue and your done after you tease out some fibers from the dubbing. If you haven't fished the fall you have miss out on the best fishing of the year.

Tight Lines  
Friends,  
John

## Fall 2012 – Fly Fishers Club of Orange County Fly Tying Classes

By Cheryl Moore

Now is your opportunity to learn how to tie that special fly that you can't find anywhere. The Fly Fishers Club of Orange County is offering fly tying classes. The ability to tie your own flies will give you another element in our great sport of fly fishing. This program will be given at no cost to FFCOC members. The dates for this round of fly tying classes are October 4, 11, 18 and 25, 2012 as well as November 1 and 8, 2012. Class time is from 6:00 pm to 8:30 pm. We are very happy to accept the offer of the REI/Tustin store to host these classes in their Community Room. The REI/Tustin store is located in the Tustin Ranch Market off the 5 freeway at Jamboree, between Best Buy and Total Wine.

The FFCOC will furnish all of the tying materials and hooks. All you will need to do is bring your basic fly tying tools. You will receive a printed recipe for each of the flies that our instructors give you. These recipes will give you the sizes and materials used in constructing specific flies. By the time you have completed your fly tying classes, your fly box will be stuffed with new and exciting fly patterns. If you would like to join us at REI, I will have a sign up sheet at our next monthly meeting on Wednesday, September 12, 2012 or just drop me an e-mail at [flytyer10@aol.com](mailto:flytyer10@aol.com) and let me know that you have an interest in attending. I will need to know your tying level of expertise: beginning – intermediate – or advanced. I'm looking forward to a good time and interesting conservation in October.

# F.F.C.O.C. Pack Trip July 8-12 2013

Into the Ansel Adams wilderness of the Sierra's  
Using Frontier Pack Station at June Lake

Stream keeper: John Williams 951-236-0862

Please call and ask questions.

Cost: \$975 which includes all permits and trail fees

Sign up requires a \$200 non refundable deposit. The deposits have to be in by March 1, 2013

Maximum group is size 10 we have 3 already taken.

---

## September Fishing Southern Utah 23-27, 2013

A wonderful time to see and catch some nice fish in spawning colors.

You've heard me talk about Southern Utah, now here's your chance, 5 days of guided fishing.

**Stream Keeper:** John Williams 951-236-0862

**Head Guide:** Mike James of the Quiet Fly Fisher 435-616-2319

**Cost:** \$800 to the guide plus tip, lodging and food.

**Lodging:** Sunglow motel and café, Bicknell, Utah 84715 phone 435-425-3701 say you're with the Fly Fishers Club of Orange County guided by Mike James 2 persons per room. They have good rates.

**We have 5 openings left; the max group size is 6.** (You must be a paid member to attend.)

**Recommended Gear:** 9'-5wt. Rod with a weight forward floating line. 9' 5x leaders, 3x, 4x, 5x Fluorocarbon tippet. The guide will provide the flies if you would like. John Williams will offer a tying class for anyone wanting to tie their own flies for the trip.

**Contact John to make your reservations, a \$100 deposit is required to hold your spot.**

Check out the videos links.

# Trinity River Trip Postponed to November 2013

A FFCOC trip to fish the Trinity River was tentatively set for late 2012 or early 2013. Planning for this trip got a late start. The guides we prefer from The Fly Shop got booked for the candidate November and December dates. Although they are available for a late January trip, we have decided to postpone the trip to late 2013 due to concerns about winter weather in late January.

We are now planning the trip for November 11-16, 2013. Lodging will be at the Trinity River Adventure Lodge and guides will be from The Fly Shop (Redding). These services have been booked for the November dates.

Richard Fanning and Audrey Williams

## Fishing San Diego Bay Under Coronado Bridge

Lyman Kennedy was the Stream Keeper for a club outing to Tidelands Park at the Coronado Bridge in San Diego Bay Saturday August 18<sup>th</sup>. The outing was held in conjunction with the Long Beach Casting Club with a total of ten participants; 6 from our club and 4 from Long Beach.

From the perspective of a first time float tuber (me) and first time fisher in San Diego Bay or any other Southern California Bay (me) it was a great trip. Leaving home at 4:10 a.m. to arrive at Tidelands park at 5:30 in the morning (low tide) was a bit of an early start but the traffic was very light. Compared to most areas we fish, this is a local trip; right in our back yard. The weather was very pleasant, even at 5:30 when I arrived at the park.

The fact that I wasn't sure how to get started when I arrived was not a problem as Jim Thomason had arrived before me and helped me get oriented; I basically copied what he was doing, getting ready for the day of fishing. I started by dragging my partially inflated hybrid float tube/pontoon boat out of the back of my SUV. Although this was the contraption's maiden voyage, I had previously inflated it and tried the oars and fins out in our family swimming pool. After a few minutes for inflating and assembly, and a light breakfast, I was ready to give San Diego Bay fishing a try. By this time Greg Madrigal and a few others had arrived. Greg gave me a ghost shrimp pattern he had tied. At the end of the trip I was pleased to tell Greg I had caught a couple of Spotted Bay Bass on his fly. Next I rigged my 6 weight rod that Rich Fanning helped me build in the Club's rod building class a couple years ago with a 250 grain sinking tip line and a couple of Clousers. Lyman Kennedy arrived with Carl Thompson and they agreed to show me the ropes once they got on the water.

I proceeded to drag my float tube across the sand, launch it, and get my fins on so I figure out how to row, kick, and manage the float tube, rod, etc. before Carl and Lyman got ready to show me the ropes. Carl got to me first and after we rowed out to the boats at their moorings, he showed me the basics while he caught five Spotted Bay Bass in the first 5 or 10 minutes of fishing. It wasn't long before I had caught a couple.

After the first couple fish things slowed down for me; however, before long Lyman came by with his depth finder. He said that the bottom was about 18 feet down and that with the depth, current, etc., I should change from the 250 grain line to a 300 grain sinking tip line. With Lyman's advice I immediately

# Casting Clinic Now Scheduled for Nov. 3 2012

The annual FFCOC Casting Clinic will be held the morning of Saturday, November 3<sup>rd</sup> at Shelter 1 in Mile Square Park. Last year more than 25 Club members volunteered to make the event possible. The original April date was cancelled because of the wording on our insurance certificate but the good news is when we rescheduled, the OC Parks Department exempted us from all site and permit fees.

The Clinic will start with participant registration at 8:00 AM and end with lunch for all guests and volunteers. We'll need volunteers to set-up the site, register casters, demonstrate at knot- and fly-tying tables, help set up and take down rods/reels, cook, take pictures, instruct, and generally help out as needed.

If you're interested in helping out in any capacity please email me at [FFCOC.casting@gmail.com](mailto:FFCOC.casting@gmail.com) or call 949-307-6873. We'll need and use all the help we can get! Thanks – Van Lloyd

## 2013 OUTINGS PLAN BY LYMAN KENNEDY

<b>Date</b>	<b>Location</b>	<b>Streamkeeper</b>	<b>Phone #</b>
January	Laguna Niguel Lake	Lyman Kennedy	714 921-9412
February 11	Surf Outing	Jim Edwards	714 337-5899
March	San Juan River	Lyman Kennedy	714 921-9412
March 23	Double Haul Ball Seminar	Shane Chung	949-633-6973
April	Pyramid Lake	Jim Wright	714 679-6638

December			

# CONSERVATION FRONT AND FFF NEWS

(This is not an endorsement, but just getting the notice out to the club members on behalf of the conservation and FFF events happening within our state affecting our fisheries. )

## West Fork San Gabriel River Conservancy Conservation News

Club Members, FFCOC is a supporter of the West Fork San Gabriel River Conservancy and as such we encourage you to volunteer any time you may have to help out this organization. If you are interested in seeing what they do, please join them on one of their patrols .

West Fork San Gabriel River Conservancy Patrol Dates Contact :

**John or Melinda Burns** ([1stvpresident@ffcoc.org](mailto:1stvpresident@ffcoc.org)) :

Patrols meet at the Environmental Education Center (1/4 mile North and across the street from the OHV Staging Area on Hwy 39) at 8:30AM, departing at 9AM (unless otherwise noted). Please contact the Patrol Leader listed for each patrol for more information and to confirm your attendance. PLEASE NOTE: If we don't receive your email conformation prior to Patrol, we might not open the Ed Center to meet you!

To find out more about West Fork San Gabriel River Conservancy [CLICK HERE](#)

## Two bills which will have impacts on the California Fish and Game Commission and Department of Fish and Game may be approaching votes in the legislature

### AB 2402

California AB 2402 was drafted to implement the results of the recent Strategic Vision Process. AB 2402 is notable in that it would change the name of DFG to the Department of Fish and Wildlife. Many of the provisions of this bill are directed at creating a stronger science base in DFG (DFW??). The bill would increase the responsibilities of DFG for implementation of the Endangered Species Act, and emphasizes ecosystem-based management decisions. The bill also contains language that defines and emphasizes policies of "adaptive management" and "credible science." **AB 2402 would authorize DFG to create a "Science Institute."** The Science Institute would "assist in obtaining independent scientific review, advice, and recommendations to help inform the scientific work of the department and commission." **AB 2402 would require the Commission to adjust license fees to cover costs of programs.** **AB 2402 would also "authorize the department to enter into agreements to accept funds, services, or to assist the department in its efforts to secure long-term private funding sources for purposes relating to conservation programs, projects, and activities by the department."** This provision has generated opposition, based on the assertion that large conservation or special interest groups might gain undue influence over DFG policy.

### SB 1148

California SB 1148 could also go to a vote this week. The bill contains many provisions that would strengthen wild and native trout policy, and is supported by CalTrout. The bill addresses the state hatchery program, establishing preferences for stocking of native fish or triploid (sterile) fish when possible. You can read CalTrout's supporting position on this legislation at <http://caltrout.org/2012/08/caltrout-supported-sb-1148-legislation-finalized-heres-what-it-really-does/> **SB 1148 also addresses licenses and fees, including the lifetime sportsman's license program.** **Some fishing groups, particularly commercial and recreational marine fishing organizations, are strongly opposed to other portions of SB 1148, as currently written.** **Provisions of SB 1148 transfer authority of Marine Protected Areas from the Fish and Game Commission and DFG to a cabinet-level organization, the Ocean Protection Council.** You can learn about the OCP here: <http://www.opc.ca.gov/about/> Opposing arguments to SB 1148 and AB 2402 can be found here: [http://keepamericafishing.salsalabs.com/o/6394/p/dia/action/public/?action\\_KEY=4081](http://keepamericafishing.salsalabs.com/o/6394/p/dia/action/public/?action_KEY=4081)

If you would like to read current versions of the bills, you can find them here:

SB 1148 [http://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill\\_id=201120120SB1148&search\\_keywords=](http://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=201120120SB1148&search_keywords=)

AB 2402 [http://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill\\_id=201120120AB2402&search\\_keywords=](http://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=201120120AB2402&search_keywords=)

Both of these bills have been amended many times, including two times last week. Please keep in mind that the assessment we have provided here is a snapshot of the legislative progress of these two bills.

**Tim Bartley** Conservation Southwest Council, FFF

760-709-5034, 805-402-8406 (cell) [timbartley1@mac.com](mailto:timbartley1@mac.com)

*(Continued from page 1 "Pyramid Lake")*

Ernie was born in southern California and started fishing with his Dad as soon as he could walk. At age seven Ernie moved to New Orleans where he learned how to fish Lake Pontchartrain for speckled trout. Later he moved back to SoCal and began fishing Pyramid, Crowley, Bridgeport Reservoir and many lakes in Utah, Idaho and Nevada. Ernie currently resides in Riverside with his wife Shannon and two children, Logan age eight and Aidan age four.

In 1998 curiosity about those long rods with thicker lines won out and he tried fly fishing. Well, a love affair was born and he has never looked back. In 2006 Ernie joined Deep Creek Fly Fishers, where he became a principal instructor for fly tying and classes on stillwater tactics. In 2007 he won the "Double Haul in the Fall" tournament at Crowley, both individual and team division and in 2008 and 2009 Ernie placed second in the "Stillwater Classic" team trophy. In 2008 Ernie joined the High Desert Fly Fishers where he has served as Vice-President and President. You can see why Ernie is "The Man" to show and tell us about how to be successful on this fishery. You can see and learn more about Ernie and his fishing services at: [www.erniegulleyflyfishingguideservice.com](http://www.erniegulleyflyfishingguideservice.com)

So if you want to learn about fishing Pyramid Lake and how to hook and land a giant trout, you should be at our next meeting.

**The meeting will be in the Loreley Restaurant,  
located adjacent to the main bar/restaurant.**

---

*(Continued from page 6 "San Diego Bay Outing")*

started catching fish again. Later, several of the group had moved beyond the moorings into an open area where they seemed to be having good success so I rowed out and joined them. I seemed to be the only one not catching fish. Lyman again gave me some advice on techniques based on the water depth and bottom condition and I immediately started catching fish again.

A little later Lyman and I rowed out past the Coronado Bridge hoping that we would have some luck near the bridge pilings. Lyman found an area past the bridge with bottom vegetation and started pulling out fish about as fast as he could get his line in the water. Being a relative novice, I only caught a couple of fish in this area and spent most of my time switching flies, untangling line, fighting the wind, and trying to figure out why I rotated clockwise regardless of which foot I kicked with. Eventually I came in past the bridge pilings (without fishing success) and made my way back to the beach about noon. Although some of the others had long since stopped counting their fish, I landed a dozen Spotted Bay Bass; not bad for a first timer.

After hearing a few fish stories and thanking everyone for their help, I packed up and made the drive home. This was a great local trip; I tried out new equipment, learned a lot from others, caught fish, and have a new day-trip destination to fish.

Doug Jones

---

# Membership Welcomes

Please join me in welcoming our newest members to the club. Make sure to look out for them at our next meeting and introduce yourself to them to welcome them into our fly fishing family.

**Bruce Shibata**

**Remember that our new members have a green circle sticker on their name badge.**

# Fly Fishers Club of Orange County

The **PURPOSE** of the Fly Fishers Club of Orange County is to:

- Encourage angling with artificial flies (fly fishing)
- Encourage education and fisheries conservation, including habitat and watershed conservation
- Disseminate to the public the results of the Club's efforts
- Encourage youth to follow sound conservation practices

To **ACHIEVE** this the Club conducts various meetings, events and outings as documented in this newsletter.

**MEMBERSHIP** is open to all. If interested, contact one of the board members or come to one of the meetings.

**Meeting Locations:** Cross Roads Church of Irvine/  
Phoenix Club: Tustin:  
1340 S. Sanderson 2472 Walnut Avenue  
Anaheim, CA Tustin, CA
