November 21, 22	On The River Clinic Lower Owens, Bishop, CA	Joe Libeu/Doug Jones	714 998-7304
December	TBD		

## Outings

# On The River Clinic

By Joe Libeau

The club is offering an “On the River Clinic” for new and beginning fly fishing club members. This is a two part event.

### Lecture Portion:

Each lecture will be different and will cover equipment, entomology, reading the water, knots, leaders etc

The lecture portion will be held on October 24 and November 7 from 9:00 am to 12:00 pm:  
Montesilla Mobile Home Park 15601 South B St, Tustin.

### Outing Portion:

The outing will be held the weekend of November the 21, 22 on the Lower Owens outside of Bishop, CA.

This is a great opportunity for new club members. It will provide you with valuable information to help you become a more productive fly fisher. The class is limited to 20 students.

We are also asking for instructors to help on the November weekend. If you have any question please contact me at 310-749-6771. If you would like to participate please contact Doug Jones ASAP at 714-697-2222 or [dougjones.oc@gmail.com](mailto:dougjones.oc@gmail.com).

## Trip Reports

### UTAH 2015

The Utah Gang got off to a good start as you can see in the photo. After some enthusiastic chit-chat we all decided to tow the line and get on with the fishing. So here is the story as told by Streamkeeper, John Williams:

Every year I try to spend as much time as I can in one of the best places I know to fish, Southern Utah. I have been fishing this area with Mike James of the Quiet Fly Fisher for 10 years and he still finds new places for me to fish. The variety of fish and the diverse locations make it very special. Combined with his knowledge make for an enjoyable trip.

You can do this trip on your own by calling Mike James if we don't have openings on our trip. This year the September trip was attended by Peter Austin, Richard Stevens, Bill West, Richard Fanning, Tom Bristol and I.

The group caught all the species of fish, Brown, Rainbow, Brooke, Tiger, Splake, Grayling, Cutthroat and tenderly released them to be caught again next year. We stayed at the Mill Cabin's and cooked most of our dinners there on our BBQ's. Here are a few pictures of what was going on.

Tight lines, John Williams

## Trip Reports

### UTAH 2015 (Continued)

## Fly Tying

### FLIES THAT KEEP ON GIVING Jurassic Rubber Legs

<b>HOOK:</b>	Mustad R90, size 6 (4x strong hook)
<b>THREAD:</b>	Uni 8/0 or UTC 70, Black
<b>TAIL:</b>	Krystal Flash, Pearl
<b>RIB:</b>	Fine Black wire
<b>BODY:</b>	Chenille, Standard size, Black
<b>LEGS:</b>	Super Floss, Pearl
<b>GLUE:</b>	Gel Super Glue (more working time)
<b>HEAD CEMENT:</b>	Super Glue

By John Williams

#### NOTES:

For Jurassic Lake the 4x heavy wire hook is deemed enough weight.

For use elsewhere, make these changes:

**HOOK:** Daiichi 1550, size 6

**BEAD HEAD:** 7/64" Black Bead

#### Tying Instructions:

1. Mount the hook in the vise. Tie in the thread behind the headspace. Wrap back to the barb. Spiral wrap the thread forward to the headspace.
2. Use four pieces of tail material about 2" long. Fold around the tying thread and bring the material to the top of the hook. Tie in over the hook shank to the back. Trim the tail to match body length.
3. Cut a piece of ribbing about 3" long. Lay over the shank with the excess to the back. Wrap the tying thread forward to the headspace, securing the ribbing for use later.
4. Spread a light coat of GEL super glue over the top of the materials already installed.
5. Tie in the body material over the shank with the excess to the rear.
6. Tie in three pieces of wing material perpendicular to the body. One piece about two head spaces from the front, the other two farther back on the shank. The distance between the legs should be about the same as the diameter of the body material. Return the thread to the front.
7. Spread light coats of GEL super glue on both the top and bottom of the shank.
8. Wrap the body material forward to the front, going between the legs. Tie off behind the eye. Trim excess.
9. Counter wrap the ribbing forward. Tie off. Trim excess ribbing.
10. Tie a tapered head. Trim tying thread.
11. Use super glue to finish the head.

Tight Lines, John

*Here Fishy Fishy, Here Fishy Fishy, It will only hurt a little.*

## FFCOC Leadership

### Mission:

- Encourage Angling with Artificial Flies (fly fishing)
- Encourage Education and Fisheries Conservation, including Habitat and Watershed Conservation
- Disseminate to the Public the Results of the Club's Efforts
- Encourage Youth to Follow Sound Conservation Practices

**To ACHIEVE** this the Club conducts various meetings, events and outings as documented in this newsletter.

**MEMBERSHIP** is open to all. If interested, contact one of the board members or come to one of the meetings.

### Board of Directors and Activity Leaders:

#### President

Doug Jones  
president@ffcoc.org

#### 1st Vice President

Auction Chairperson  
Jim Edwards  
1stvpresident@ffcoc.org

#### 2nd Vice President

Casting Clinic  
Denis Higginson

#### Past President

John Williams

#### Treasurer

Brian Mayer

#### Secretary

Alan Ross
