## President's Message

Welcome to July! I am writing to you from Sisters Creekside Campground; just south of Sisters, Oregon. Janna and I are here to fish the Deschutes River, Crooked River, and the Metolius River. Then on our return home to Southern California, we will stop for 3 days of fishing the McCloud River. You'll note on my side table in the photo, that I have 3 river maps of the Metolius to study; two supplied by Jim and Cheryl Moore, the third supplied by the local fly shop (The Fly Fishers' Place). The cup of flies next to me are the current "hot flies" for the Metolius; as recommended by the staff of The Fly Fishers' Place.

This is one of the benefits of Club membership; our members are willing to share their experience and insights for waters they have fished. Fellowship! Sure helps when you visit new fishing waters!!

Speaking about fellowship, our next meeting is planned to be a special one! We are planning on a "Hybrid Zoom" meeting at the Phoenix Club on July 14. Hope you caught the email to membership last week; our meeting date is **July 14** (and not July 7)! For our members who feel comfortable in doing so, we will meet at the Phoenix Club at 6:00 PM; we will have our standard Wet Flies Social with Buffet Dinner that we haven't enjoyed since March 2020. Our speaker, Dave Smith, will also be in attendance at the Phoenix Club to provide his presentation. We will then have our standard Zoom Meeting at 7:30 PM; the meeting will originate from the Phoenix Club. All those present at the Club or joining in from home will see the same presentation and meeting! Fellowship!!

Special Presidential SNAFU Note: Your President had the July 7 meeting date in his calendar, and as such, planned to travel to a weeklong RV Rally in Rock Springs, Wyoming the following week. I will not be in attendance on July 14; you will be in the very capable hosting hands of VP Larry Behm. I will attempt to join in on Zoom that night, bandwidth permitting, to say a hello!

## President's Message (Con't)

Next, our Club Picnic (First Annual) is scheduled for August 14 at Irvine Regional Park; Deer Den Group Area, 11 AM to 3 PM. Mark your calendars! This will be a celebration of you, our membership, for hanging in there the past 16+ months. A day of food, games, prizes, and most importantly, fellowship, is planned. See your newsletter for additional info. Can't wait to see you all, in person! (No Presidential SNAFU on this event!)

And as always, here's another reminder to share a Fish Tale in the newsletter or at a Club Meeting, and your name will be placed in the fish bowl for the drawing at the end of the meeting for a \$25 Bob Marriott's gift certificate! Brian Mayer was the winner of the drawing at our June meeting for his Hawaii bonefish tale!

I regret not being at the July meeting to see many of you in person again; our July meeting will be a very special one as Club fellowship returns to the Phoenix Club!! It's always great talking about and hearing stories of fishing, and most importantly the return of fellowship at our gatherings! Cheers from Sisters, Oregon!!

Terry

## July Speaker

**FFCOC- Wednesday, July 14<sup>th</sup>**

Presentation begins at 7:30PM

### NYMPHING LIKE A EUROPEAN with *Dave Smith*

In the past few seasons, the technique known as “*Euro nymphing*” or “*tight line nymphing*” has gone from being a buzz word in competitive angling to an everyday technique used by anglers throughout the world. Although simple in concept, and not so very different from what we all know as “*high sticking*”, the technique still leaves many fly fishers scratching their head and wondering what all the fuss is about.

Competition rules prohibit the use of split shot and suspension devices (floating strike indicators), giving rise to a new style of nymph fishing that uses longer rods and heavier flies.

Every day anglers benefit from the technology advances (e.g. rod design and accessories like packs and clothing) that are passed down from competitions.

*George Daniel’s* best-selling book *Dynamic Nymphing* along with various videos of *Devin Olsen* (both speakers on our Southern California circuit) is excellent reference material for all nymphing styles. Our July presenter, San Diego angler Dave Smith will focus on this and other tournament techniques that can easily be applied to our local Sierra fly fishing.

You can follow Dave on his websites:

<https://www.facebook.com/dave.smith3>

## July Speaker (Con't)

Dave is a multi-faceted and multi-species fly angler and fly tier who chases everything from alpine trout to Belizean bonefish, carp and mako sharks. He's been a competition trout angler since 2012, with appearances nationally at two *Team USA National Championships*, America's Cup international competition, and many regional events throughout the western United States. In addition, Dave was on the Professional Fly Angling tour in 2014 and has competed internationally in New Zealand including the *Oceania Fly Fishing Championships* in 2012. Through his competition career, Dave has gathered tips and tricks from fishing a vast variety of waters all over the US and internationally.

Dave is looking to share all the hard-earned information and tricks he has learned in competition fly fishing with you. He is confident that they will equate to more fish hooked, landed and you being more efficient with your fly angling. These tactics can be applied to more than just European nymphing techniques. Dave has given presentations for multiple fly fishing clubs and organizations in the past and has lead on the water clinics and trainings for fly fishing clubs and organizations.

You will often find Dave fishing with his wife, Lesley. Together they love traveling all over the world chasing fish that will eat a fly.

## Hybrid Meeting Note

Hello FFCOC club members!!!!

We are very excited to move forward with a Wednesday, July 14<sup>th</sup> “in person” club meeting at the Phoenix Club which will begin at 6pm.

Our “hybrid” July meeting will allow our members two participation options:

\*Attend in person beginning at 6pm with our normal “Wet Flies” discussion in which we plan a fly tying presentation by *Dave Smith, our San Diego based speaker, or*

\*Join the meeting via Zoom at 7:30pm and participate remotely to Dave’s presentation.

### Our July 14<sup>th</sup> club meeting agenda:

6:00 pm	Wet Flies presentation (Dave Smith tying a couple of his flies)
6:45 pm	Dinner
7:30 pm	Presentation (with Zoom access to club members)
8:30 pm	Club business and wrap-up

### Dining option and request for your help

We request your help in managing club costs by **seeking your pre-registration and advance \$35 meal payment** using our FFCOC website for our July meeting.

This new pre-meeting request will help guide the Phoenix Club in preparing/planning our club dinner that evening and help us in managing our club’s event costs.

The Phoenix Club has asked us in advance to place a meal order 10 days before our July 14<sup>th</sup> meeting.

**Using our club’s website you will be able to communicate and pre-pay your \$35 July club meeting meal by credit card.** Go to [www.ffcoc.org](http://www.ffcoc.org) and open the calendar for July 14th meeting.

### Non-dining option

If you do not plan to have dinner on July 14<sup>th</sup>, you may also make your “speaker only” payment at our club meeting as you have done in the past.

### July meeting location

Additionally, our meeting will be held in the large banquet room (where we have held our club auctions) to make it easier for the Phoenix Club to serve our dinner as it is closer to the kitchen.

## San Juan River Outing 2021

\*\*\*\* NEW DATES \*\*\*\*

August 1 to August 5, 2021

Stream Keeper: **Brian Mayer, (562) 619-9169, bdmayer@hotmail.com**

We have been able reschedule our San Juan River outing for the first week of August 2021 !

Please contact Brian Mayer, bdmayer@hotmail.com, (562) 619-9169 for questions, answers, information and to make arrangements.

The clear river waters of the San Juan are the jewel of northwest New Mexico just a short 14 hour's drive from Southern California. The river is fed from the deep waters of Navajo Lake which provide nearly constant temperature and abundant food supplies. This means many large brown and rainbow trout with substantial fight.

I have made a block reservation at the Fisheads San Juan River Lodge for rooms and Guides [ <http://www.fisheadsofthesanjuan.com/> ]. Please contact me if you wish to attend this outing so I can assign rooms and fishing buddies. If you prefer to make your own arrangements, please feel free to do so.

Please Note: the Abe's Motel, Restaurant and Gas Station have permanently closed. It is up for sale and NOT operating at this time.

Plan to arrive by Sunday, August 1. The general plan is to fish with guides Monday, Tuesday and Wednesday, August 2 to 4. I strongly recommend you get a guide for at least two days to thoroughly enjoy all the fishing the San Juan Quality Water has to offer.

I will be coordinating a caravan for this trip. We will depart SoCal on Saturday, July 31 and spend the night at Flagstaff, AZ. We will arrive midday on Sunday, August 1 to the San Juan River.

## Bridgeport Outing 2021

**Dates: September 24 - 28**

**Location: Willow Springs Motel and RV Park, Bridgeport**

***Reservations are NOW being accepted!!***

Lodging at the Willow Springs Motel and RV Park has now been secured. The plan is to arrive in Bridgeport on Friday, September 24. Three full days of fishing the Bridgeport area, then return home on Tuesday, September 28.

There are numerous great fishing opportunities in the area, including stream fishing the East Walker River, West Walker River, Virginia Creek, Buckeye Creek, Robinson Creek, and more. Stillwater fishing by boat, float tube or from the shore on Bridgeport Reservoir, Upper or Lower Twin Lakes, or float tubing on the Virginia Lakes. Ken's Sporting Goods in town is generally the source of fishing knowledge in the area; buy some flies and a t-shirt or two, and the advice gets better!! You can also check their website for a Fish Report, but best to stop in to get the latest! You can also secure a Fishing Guide at Ken's as well; gets you access to some private waters if desired.

Generally, members disperse to their desired fishing locations in the morning. Then after a day's fishing, return back to the Willow Springs Motel to rendezvous and discuss the day's fishing successes (or not), and plans for the next day. The evening group campfire, hosted by our Willow Springs staff, provides a great opportunity for telling the day's fish stories.

Willow Springs Motel and RV Park, approximately 5 miles south of Bridgeport, is our home base for the outing. Standard single rooms (queen bed), Kitchenette rooms (one queen and one double bed) for those who wish to buddy up, and 30A full hook-up RV sites are available for your lodging choices. Standard Single Rooms are \$95/night, Kitchenette Rooms are \$130/night, and RV Spaces are \$45/night.

Sounds like an Outing for you? Please contact me with your questions, or with your reservation request. Thank you!!!

## President's Outing 2021

**Dates: October 8th - 10th**

**Location: Kernville - Sequoia Lodge**

**Reservations are NOW being accepted!!**

Lodging at the Sequoia Lodge on the Kern River has now been secured for the 2021 President's Outing. This annual tradition is a great event to gather for fun, fishing, telling of stories, and to spend some time with your fellow Club members.

The dates this year are Friday, October 8th to Sunday, October 10th; check your calendars! The days are open to whatever activities you would like to pursue (fishing the Kern River would be a good one!). The evenings will feature gatherings at the Sequoia Lodge compound for dinner and socialization (more on that later).

The Sequoia Lodge features Single Queen (SQ), Single King (SK), and Double Queen (2Q) rooms. The Club has paid the first night deposit for the block of rooms reserved. Single night lodging rates for the Sequoia Lodge are as follows:

Room Type	Rate	Tax (6%)	Total
SQ	\$135.00	\$8.10	\$143.10
SK	\$145.00	\$8.70	\$153.70
2Q	\$149.00	\$8.94	\$157.94

You may now contact your President (me) with your specific room request. I will then send you written confirmation of your request with room assignment. When your lodging request is confirmed, please send your reservation deposit to our Treasurer, Tom Sakai.

Our group reservation is subject to a 30 day Cancellation Policy. Should this outing be canceled, your deposit will be returned. At a future date (end of August), all confirmed attendees will be asked to contact the Sequoia Lodge directly to provide your personal credit card info for payment of balance due on checkout.

Please contact me with your questions, or with your reservation request. Thank you!!!

## Fish Tales

June 14 – 18, 2021

### **Melinda Burns: Steamkeeper**

On June 14, Ten Club Members experienced a trip of a lifetime. The goal was to fish and fish we did. Eight of us experienced a different guide each of the three days. Their knowledge extended beyond just fishing but included the history of the 1800-foot-deep canyon and its surrounding area.

For five days each of us experienced nature's beauty from the flats of the desert, 8,000-foot mountain tops, 3,000-foot-high plateaus, the native American Indians Navajo, and petrographs that are 1000's of years old.

Three of the guides have written books about Glenn Canyon ranging from the surrounding geological make-up of the canyon, photos of the area, to fishing strategies. The story continues with our experiences, read on and enjoy.

We arrived on Monday and had dinner at the Cliff Dwellers Restaurant which was named one of the best restaurants in Arizona by the Arizona Highways Magazine. The menu varied from barbequed ribs, fish tacos, sandwiches, salads and much more. We were able to order breakfast burritos or sandwiches for our next day fishing trip.

We all set off with our various guides. Some of us waded in slow flowing riffles, some of us nymphed from a drifting boat and some of us even did a little dry fly fishing catching those little beauties on dries. But most of all, we enjoyed a beautiful and serenity of the river and the canyon.

## Fish Tales (Con't)

We finished the 1<sup>st</sup> day on the river with a homemade meal that cooked in the crock pot for 10 hours. So, we all gathered in front of the Moore's and Burns' room and shared a yummy meal of Pot Roast, exchanged experiences and stories.

Now the second day, I have to say we, being John and I were lucky enough to have Terry Gunn as our guide. Yep, they pulled him out of retirement to meet our clubs needs. So selfishly as streamkeeper, I assigned him to John and I. The perks of being the streamkeeper, you get 1<sup>st</sup> choice. And oh boy, what a day I had. 30+ fish and possibly 40. Terry knows his river and how to fish it. It was the best day fishing for me ever. He was so excited that I was catching them, he almost didn't want to stop. But the heat was getting to us all and we called it a day.

I have been planning and organizing this trip for the last 8 years. Going every other year.

So here is a link below where I put together photos myself, Gary Jaacks and John DeLoof took.

Hopefully you will be able to join John and I on the next trip.

## Fish Tales(Con't)

### International Man of Few Words: Joe Libeu

### Monache Meadows: Andrew Sprowl

I had to find out if my new Ford F-150 4x4 was up to the task so I put in through the paces on the 4x4 trail back to Monache Meadows this past weekend June 4-6<sup>th</sup>. I would not recommend this trail unless you have a 4x4 with good ground clearance, my frame has a new ding and a scratch or two but my truck handled like a champ.

I got invited on this trip by a couple of Bakersfield boys I had met previously fishing the Kern and to my surprise was the only angler not packing a side arm. I had been back here once before in maybe 2018 where I remember the water being much higher but I didn't get to spend as much time exploring that trip. We got back to the campground around noon on Friday and setup camp and we each headed in different directions to hit the river for a few hours that evening. I could not believe my eyes as the first run I approached that looked deep enough to be holding anything had a monster 16 inch brown who took my size 16 Elk Hair Caddis on the second drift and the big fish of the trip was in the net in my first five minutes of fishing! I probably caught another 20 fish on that Elk Hair Caddis before I got bored and decided to fool around with something else in the box.

**Continued, next page →**

## Fish Tales(Con't)

The fishing was good in the mornings and afternoons but slowed down mid-day as water temps crept above 70 degrees in the skinny water. I fished a few miles above and below the weir and we made our way out into the meadow on our way out on Sunday. (also stepped leg deep into a beaver lodge) I was mostly targeting the deeper runs which were few and far between and I was surprised at how many browns were caught. You could easily catch forty fish a day if you stayed after it and there were runs holding a solid 50-75 fish in them.

All and All it was a great trip and I can't wait to go back after we have a decent winter....Andrew

## Flies That Keep On Giving!

## Flies That Keep On Giving! -continued

Smear a light amount of super glue on the entire shank of the hook and cover the shank with thread from the eye to the bend. Select a piece of each color of EP fibers and place on top of each other going from light to dark on top. I get two sets of legs out of each selection of fibers. Cut the gathered bunch in half. Place one bunch at the bend with the lighter fibers facing down and secure with figure eight wraps and place a dab of super glue at the tie in point when done, let sit a minute or until dry. With a bankers clip pull down on a gathered leg and pinch with the clip to form the foot. Wrap with thread and superglue the wraps and allow drying and then removing the clip. Do the same on the other leg. Spin deer hair the entire rest of the shank to the eye and pack well and super glue the final wraps of thread at the eye with a smear of glue. I start by trimming with scissors and finally use a double edge razor blade. The shape will determine how it will react in the water, a fat head will push water and a tapered will glide smoother, it is your choice. Add spots of marks with the black marker on the topside.

Tight Lines and hold on for the big one.

John
